Project Timber.

SEPTEMBER 2020

TUI HOUSE, WAIHI BEACH

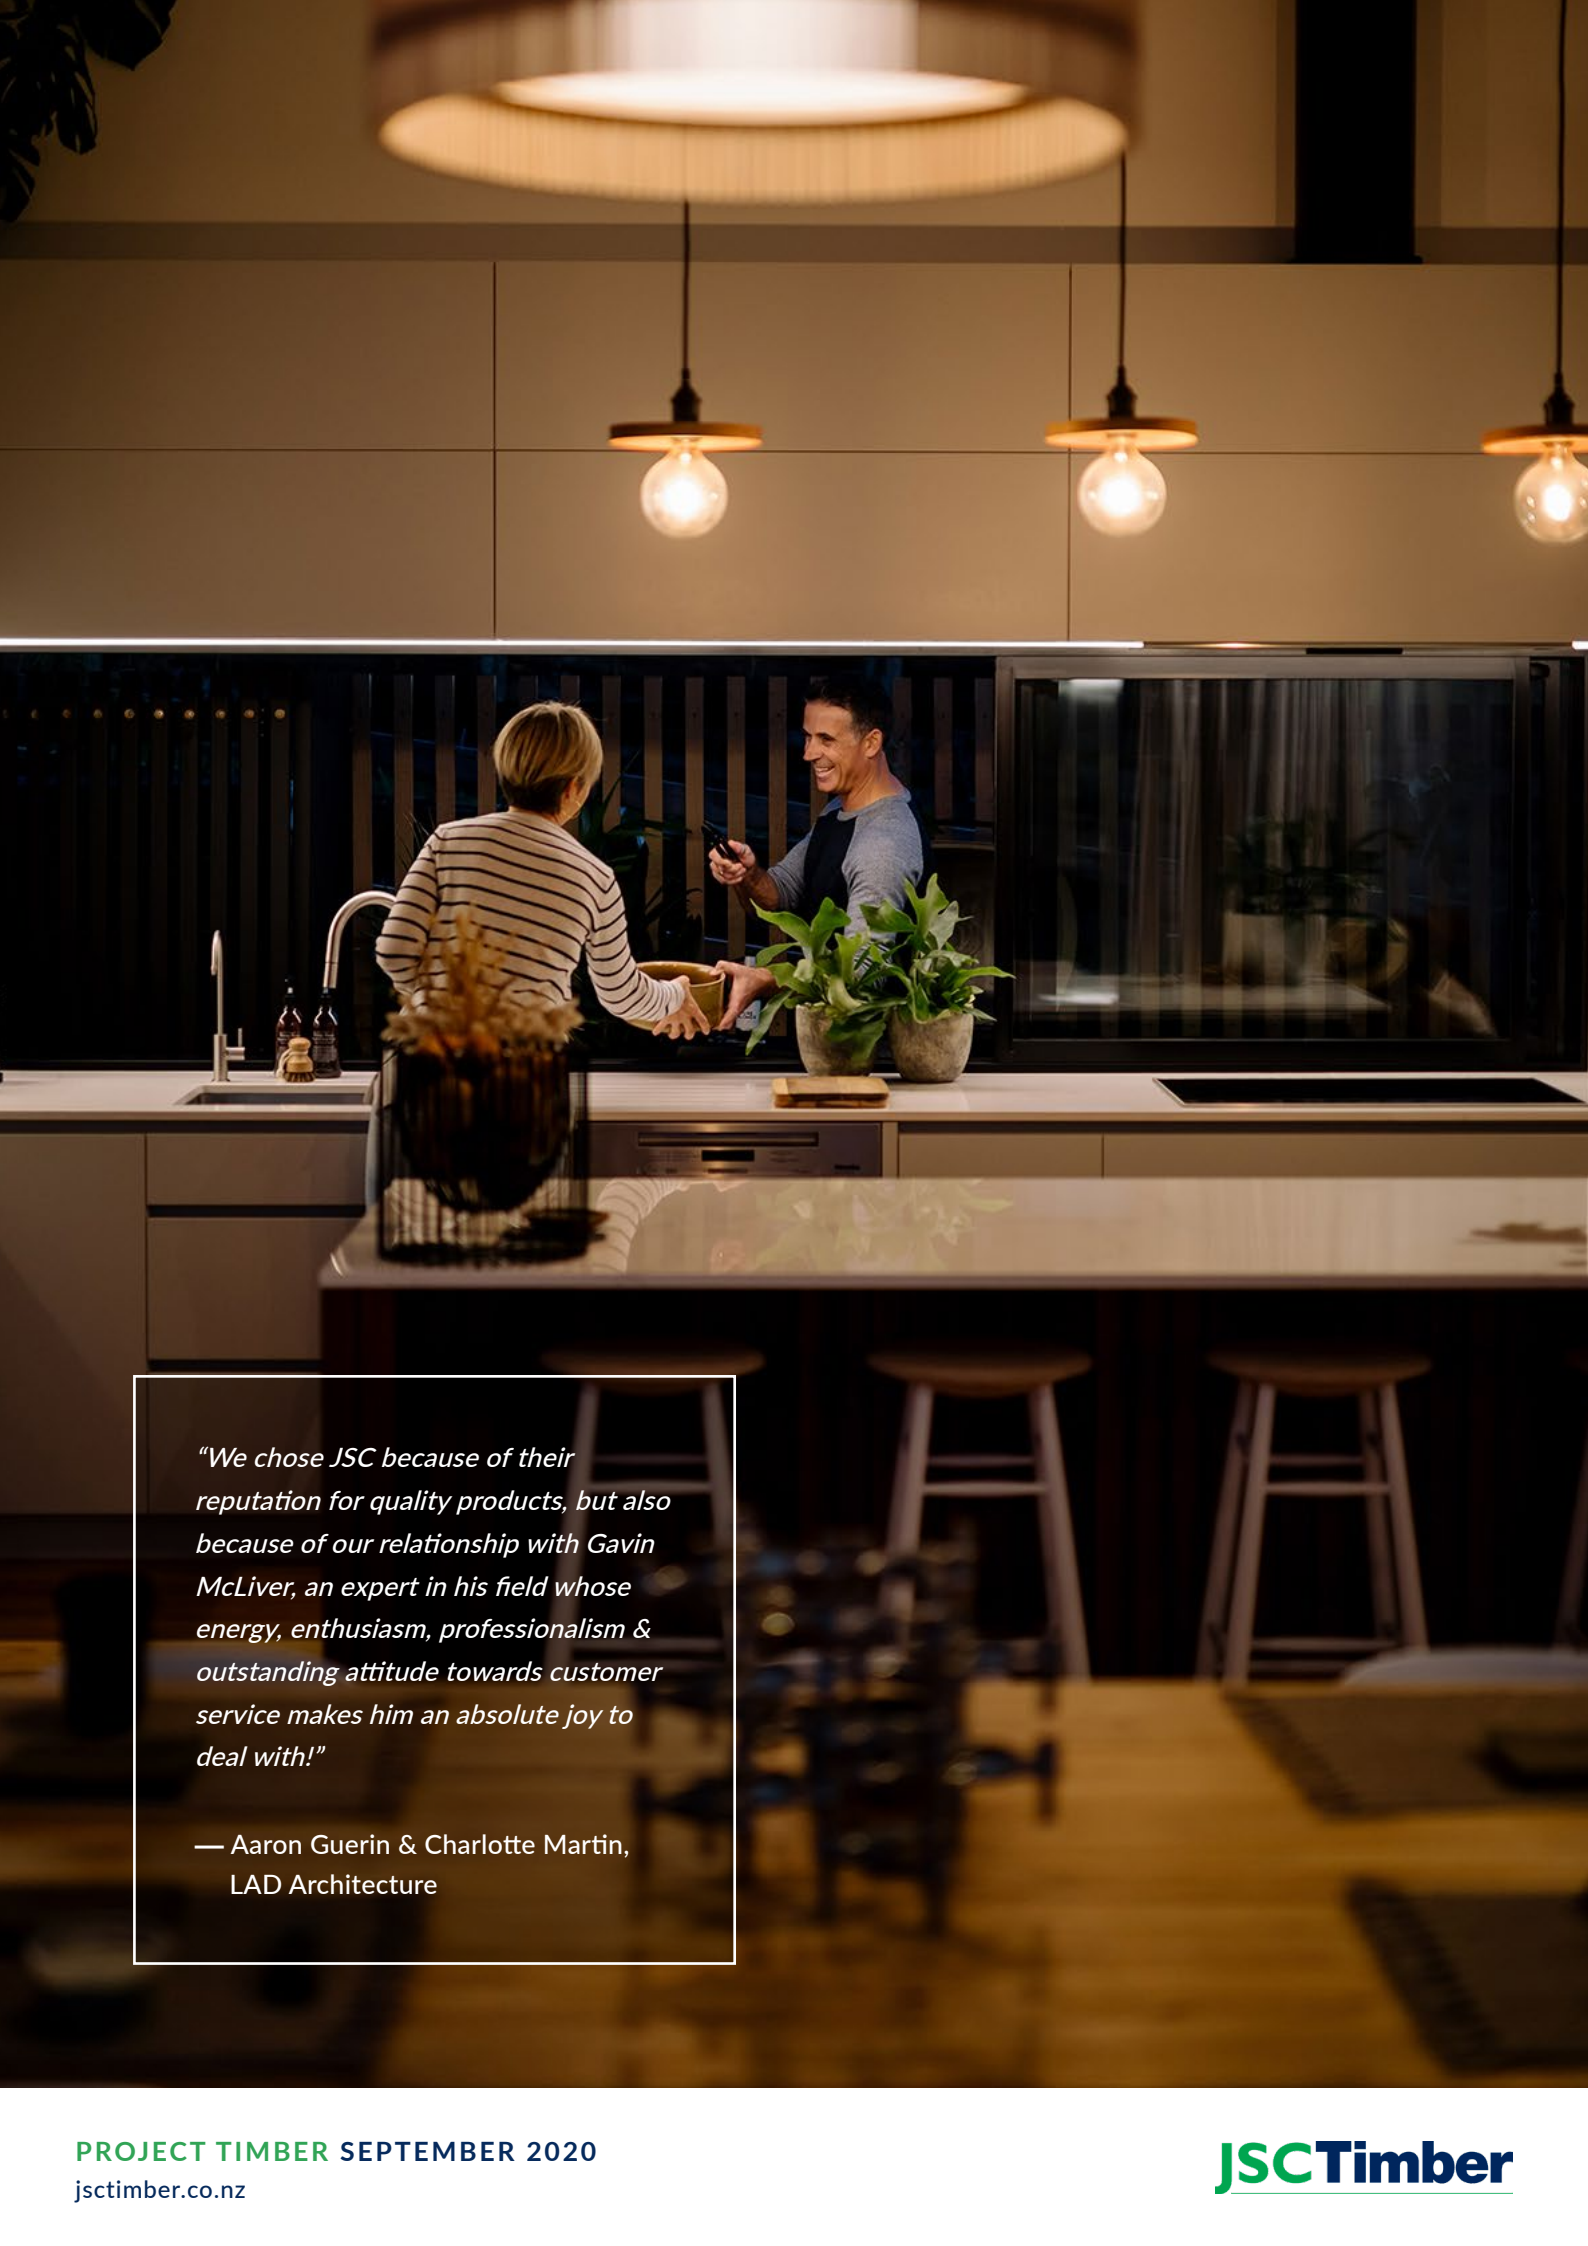

The Project.

TUI HOUSE, WAIHI BEACH

Aaron Guerin & Charlotte Martin from LAD Architecture sought only the best when it came to constructing their new home in the sunny coastal town of Waihi Beach. They selected JSC Timber products both inside and out to create a contemporary look that is long-lasting and durable for everyday living.

Photography: Aaron Radford

"We chose JSC because of their reputation for quality products, but also because of our relationship with Gavin McLiver, an expert in his field whose energy, enthusiasm, professionalism & outstanding attitude towards customer service makes him an absolute joy to deal with!"

— Aaron Guerin & Charlotte Martin,
LAD Architecture

Interior.

AMERICAN WHITE OAK FLOORING

JSC American White Oak flooring provides a durable surface for everyday life, making it perfect for this busy family. As well as providing a sleek and contemporary appearance, the floors are easy to maintain and a long-term investment. Available as FAS and Rustic grades.

Interior.

WESTERN RED CEDAR PANELS

Western Red Cedar paneling was used on walls, bunk beds, and the kitchen island to add focal points to this interior. The timber adds a natural warmth to any living space with fantastic colour, grain patterns and texture. JSC offers a hidden clip system to provide a sleek appearance that, when oiled, will maintain its look for years. This, coupled with a number of profile options, finishes and fixing methods, makes it a perfect solution to complement any design.

Exterior.

KWILA DECKING

JSC Kwila is kiln-dry and 100% FSC certified from managed forests. It has been used in New Zealand for more than 40 years, and is popular in extreme climates such as Central Otago for its durability and versatility, which made it ideal for the exterior decking of the house. Kwila's uses include decking, flooring, joinery, construction and manufacturing.

Timber for generations.

Leading the market with world-class products & sustainable practices.

Since 1900, JSC Timber has been a leading manufacturer and supplier of quality hardwood and exotic softwood timber products.

Our modern factory and highly-skilled staff allow us to create products and custom profiles in-house for added benefit and flexibility.
