

NZIA ACCREDITED

CPD PRESENTATIONS

PREMIUM ARCHITECTURAL
& BUILDING SOLUTIONS

CONTINUING PROFESSIONAL DEVELOPMENT WITH JSC

JSC is proud to extend its commitment to architectural excellence through our newly accredited status as a CPD provider, endorsed by the New Zealand Institute of Architects. As part of the Registered Architects Act - Over a 5 year period architects must achieve a total of 1000 CPD points including a minimum of 100 points in each of the following units of competency: Design; Documentation; Project Management; Practice Management; and in addition there is a 5th category 'Core Professional Development' which covers subject areas that are relevant to all architects regardless of the work they do. JSC presentations would form part of this category.

As the demands of sustainable building practices and eco-conscious design escalate, the specification of materials that balance durability with environmental integrity become critical. Our CPD presentations address these challenges head-on, offering in-depth insights into Thermally Modified Timber (TMT) - a material that not only meets the rigorous standards of contemporary construction but also aligns with the principles of environmental stewardship.

Details of the presentations:

- NZIA approved content.
- Led by JSC team members who are experts in their field
- Suitable for a variety of learning preferences and schedules
- We offer face-to-face presentations at your office as well as virtual presentations
- There are two time options available:
 - 30min presentation - 5 formal CPD points (this includes Q&A)
 - 1 hour presentation - 10 formal CPD points (this includes Q&A)

For more information and to book a CPD presentation drop us an email, give us a call, or visit our [Contact Us](#) page and fill in the form with your details and select "book a presentation" from the drop down menu.

Join us on this journey of learning and discovery, where your professional development is our priority.
