Project Timber.

AUGUST 2020

RAMAROA, KAPITI COAST

The Project.

RAMAROA, KAPITI COAST

Ramaroa Centre draws on the local Māori heritage and WWII US Marine buildings for its design. Gilplans Architecture and Ryder Builders link two separate gable buildings with a gullwing roof, tiles, walls and decks, all of which are crafted in JSC Iroko and Western Red Cedar, and influenced by the traditional Māori wharenui and tent structures from the US Marine camps.

Exterior.

IROKO DECKS & FINIS

JSC Timber Iroko was utilised across the exterior of Ramaroa, including the decking and feature fin details. To withstand the baking Kapiti Coast sun, Iroko – being a class 1-2 grade timber – was specified for its ultimate durability. The timber also comes from a long-standing, responsible source, and is 100% FSC-approved.

Exterior.

WESTERN RED CEDAR CLADDING

JSC's Western Red Cedar was chosen for the weatherboards of Ramaroa specifically for its colour and natural appearance, as well as its durability, stability and ease of use throughout the project. The timber comes from the west coast of Canada and the North West of the USA; with sustainability at our heart, JSC only purchases from certified forestry operations, assuring that the timber comes from a well-managed resource.

Interior.

WESTERN RED CEDAR PANELING

Western Red Cedar was chosen for the interior of this project due to its aesthetic and functional properties. The colour and intricate grain structure bring a warmth to the room, creating a striking but natural look that aligns with the exterior design. The relatively lightweight nature of the product also adds a huge benefit in ease of installation on the ceiling.

Timber for generations.

Leading the market with world-class products & sustainable practices.

Since 1900, JSC Timber has been a leading manufacturer and supplier of quality hardwood and exotic softwood timber products.

Our modern factory and highly-skilled staff allow us to create products and custom profiles in-house for added benefit and flexibility.

We pride ourselves on our relationships with our suppliers, and take care of our supply chain to ensure we purchase from reputable companies with a similar outlook for the future.
