

TMT AMBA

Thermally Modified Sambara

Note: When fixing JSC TMT® products use stainless steel fixings only. For comparable species speak to the JSC team about alternatives.

Lighter Clearer Grade Thermally Modified Timber

Dimensional stability

Easy Maintenance

Responsibly sourced and non-toxic

For all climates

Certified premium quality

Beautiful grade & finish

Produced from thermally modified Sambara, Amba® features warm natural brown tones, tonal variation between boards, and a predominantly straight grain appearance with minimal natural feature detailing suited to contemporary architectural applications.

TMT AMBA APPLICATIONS

Using only a natural thermal treatment process of heat and steam, the resulting durability of TMT Amba lends itself to a wide variety of applications:

- **External Cladding:** JSC TMT Amba cladding is available in a range of JSC TMT weatherboard and moulding profiles. Supplied in good average length spreads which allow for greater design possibilities and is the perfect material choice for your vertical and horizontal cladding. Covered under CodeMark® as per JSC cladding systems
- **Interiors:**
 - A favoured product for interior wall linings, mouldings, and battens.
 - Timber is free from treatment chemicals which eliminates the risk of harmful emissions.

Disclaimer: Information relating to JSC products is necessarily general and is intended to be a guide only. The product may vary in dimension, appearance, or specification as a result of natural product variations, different installation methods, or uses of the product. Customers should independently verify all technical information and obtain independent advice to determine the suitability of the product for their intended purposes. The Customer is solely responsible for determining whether the product is suitable for their intended purposes. JSC is not responsible for the manner in which the product is used, and JSC accepts no liability (whether for negligence or otherwise) for any claim arising from or relating to information, documents or other materials provided by JSC.
