

# TMT TAXON

*Thermally Modified  
Tulipwood*

## Clearer Grade Thermally Modified Timber

Dimensional stability

Easy Maintenance

Responsibly sourced and  
non-toxic

For all climates

Certified premium quality

Beautiful grade & finish

JSC TMT Taxon® is a clearer grade thermally modified timber that has a soft even-grained appearance with minimal knots. Due to the thermally modified process that the timbers undergo, TMT Taxon comes in a variation of deeper chocolate brown tones and is suitable for a variety of applications.

## TMT TAXON APPLICATIONS

Due to the process of using natural methods of heat and steam TMT Taxon can be used for a variety of applications:

- **External Cladding:** JSC TMT Taxon cladding is available in a range of JSC TMT weatherboard and moulding profiles. Supplied in good average length spreads which allow for greater design possibilities and is the perfect material choice for your vertical and horizontal cladding.
- **Interiors:** JSC TMT Taxon is favoured for interior wall linings, mouldings, and components and because it is a completely natural product modified only using heat and steam, there is no leaching of treatment chemical or natural resins.
- **Battens & Screens:** Available in a range of batten and screening profiles suitable for both interior and exterior applications, including compatibility with the JSC Clipp® Batten System.

Note: When fixing JSC TMT® products use stainless steel fixings only. For comparable species speak to the JSC team about alternatives.

**Disclaimer:** Information relating to JSC products is necessarily general and is intended to be a guide only. The product may vary in dimension, appearance, or specification as a result of natural product variations, different installation methods, or uses of the product. Customers should independently verify all technical information and obtain independent advice to determine the suitability of the product for their intended purposes. The Customer is solely responsible for determining whether the product is suitable for their intended purposes. JSC is not responsible for the manner in which the product is used, and JSC accepts no liability (whether for negligence or otherwise) for any claim arising from or relating to information, documents or other materials provided by JSC.
