INTRODUCTION

Lunawood Interiors Range

The TMT Lunawood interiors range is highly suitable for interior wall linings. In addition to the products attractive appearance, the thermal modification of the timber omits the risk of harmful emissions making this range an ideal material for interior applications.

Due to the thermal modification process the surface does not reflect sound in the same way as artificial or hard surfaces making this an exceptional product for commercial fitouts.

KEY FEATURES

1. Sustainable Thermally Modified Timber product
2. Dimensionally stable
3. Low maintenance - Can be used in its natural form or coated to your desired palette
4. Available in a range of profiles to suit a range of interior aesthetics
5. 100% Chemical-free and safe product for interiors and suitable for all climates
6. Easy to install and great for timber batten work with reduced labour

LUNA TRIPLE - 32 X 140MM

Luna Triple is a premium thermally modified timber panel for interior and other decorative surfaces. This unique product has two deep grooves to create a batten look for the surface. This is a great alternative to installing individual battens as it is easier and faster.

LUNA FEMME - 26 X 142MM

Luna Femma is a premium finger panel for interiors with five-fingers, 10mm groove and flattened top giving it a modern twist.

LUNA AALTO - 32 X 142MM

Luna Aalto is a premium thermally treated panel for interiors and other decorative surfaces. Luna Aalto's beautiful wave-shaped profile gives a 3D-look with easy installation.
